Washington Specials.

New York, Aug. 7—The morning papers contain the following specials from Washington:

Considerable feeling is manifested among the sallors of the navy, and has crept out in dispatches to the Navy Department, at the omission by Congress of the recognition of the services of that important arm during the late war. The bounty bill appropriating an additional bounty of one hundred dollars to soldiers, makes no mention of the sallors, nor are they anywhere mentioned or rewarded for their equally meritorious services.

Sodden transition from slavery to treedom, together with the immehas amount of suffering incident thereto, has filled to overflowing the lunatic asylums of the South.

Joseph Segur, at Hampton, Va., has been occupied by the Federal troops since 1861, now five years, neither the rent for which, nor destruction and use of the personal property, valued at \$10,000, has ever been compensated for. At present he is unable to obtain indemnity, owing to the ruling of General Meigs, that a claimant must not only himself be loyal, but his claim must originate in a loyal State. This decision is being considered by the Secretary of War, as it affects the vital interests of a large class of unionists, whose only dependence was necessarily taken by our troops, but who have been unable to obtain redress. The proclamation of peece by President Johnson on the 2d of April, 1866, allows about four months' consideration, but back of this date, it is claimed that compensation cannot be given.
